

HOW TO USE YOUR **PREMIÈRE VISION** COLOR TOOL

PREMIÈRE**ViSiON**
The art & heart of fashion

STEP 1

DOWNLOAD THE COLOR FILES

SAVE THE FOLLOWING FILES ON YOUR COMPUTER:**• THE QTX FOLDER:**

the QTX swatch file is for use by manufacturers to create dyeing and printing recipes,

and

• THE ASE SWATCH FILE:

the ASE swatch file is for colorists and designers.

STEP 2

OPEN THE SWATCHES PANEL IN YOUR CREATIVE SOFTWARE PROGRAM

Adobe Photoshop

Adobe Illustrator

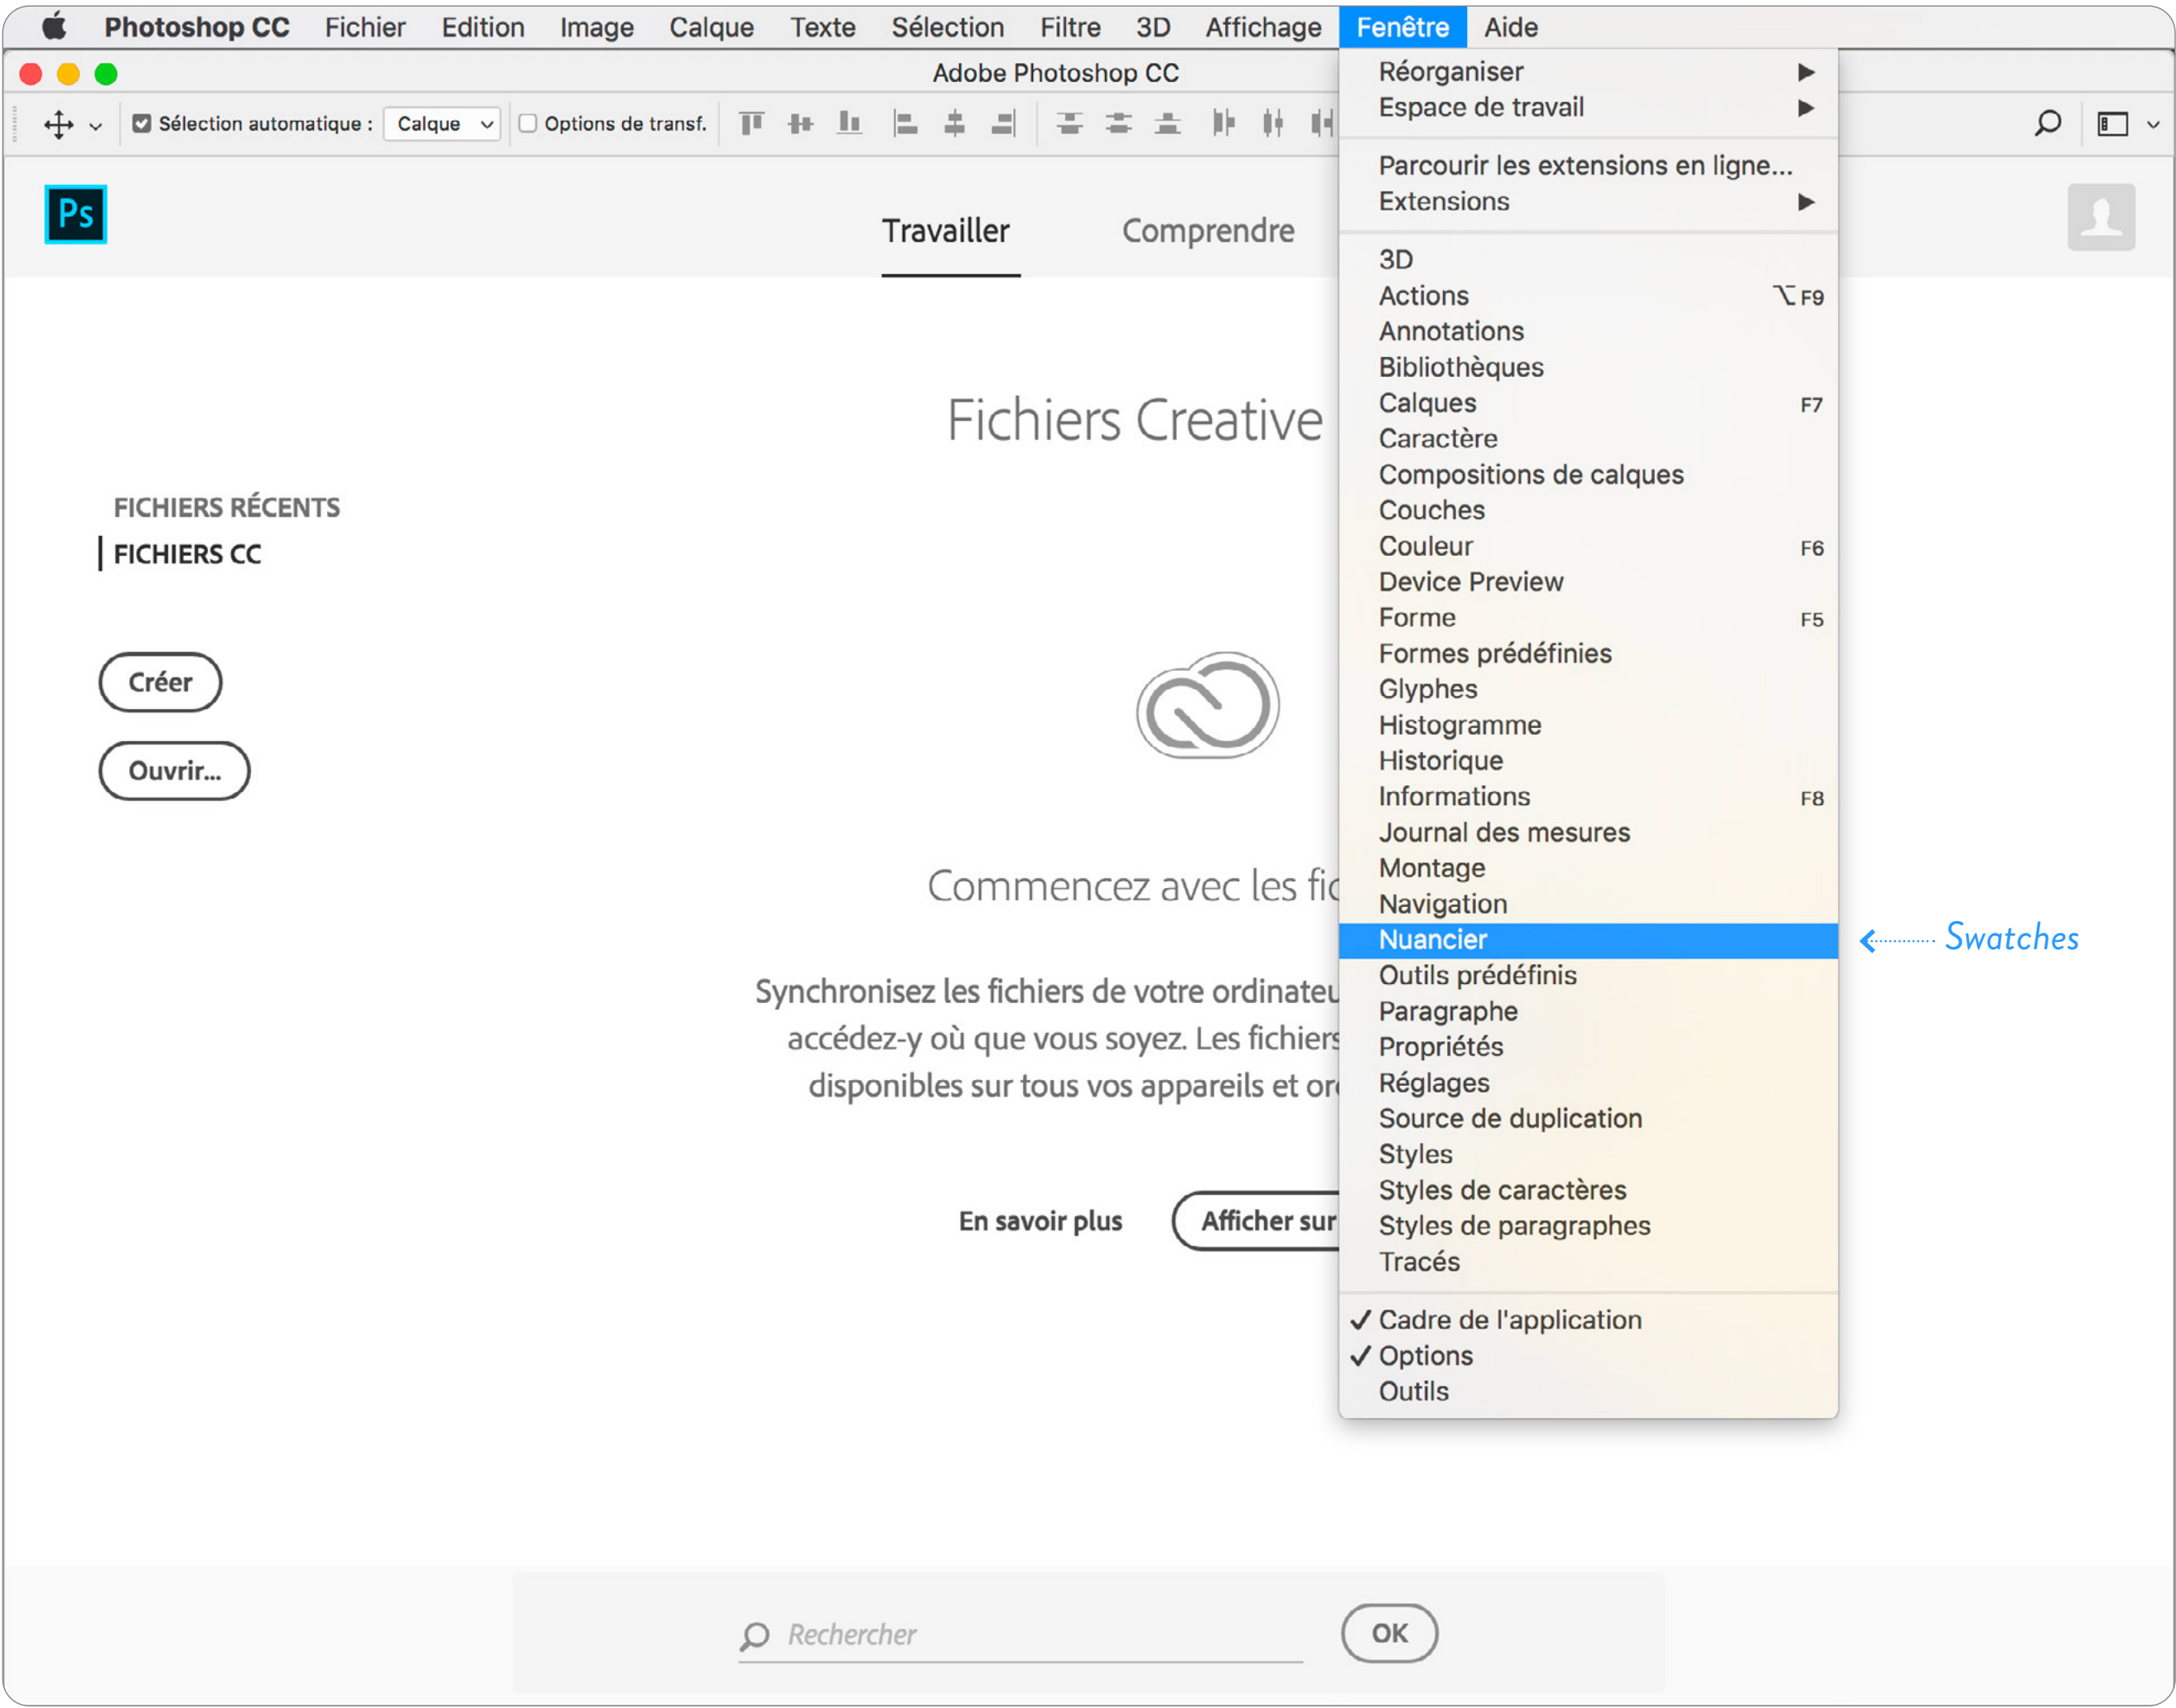

Adobe InDesign

NOTE:

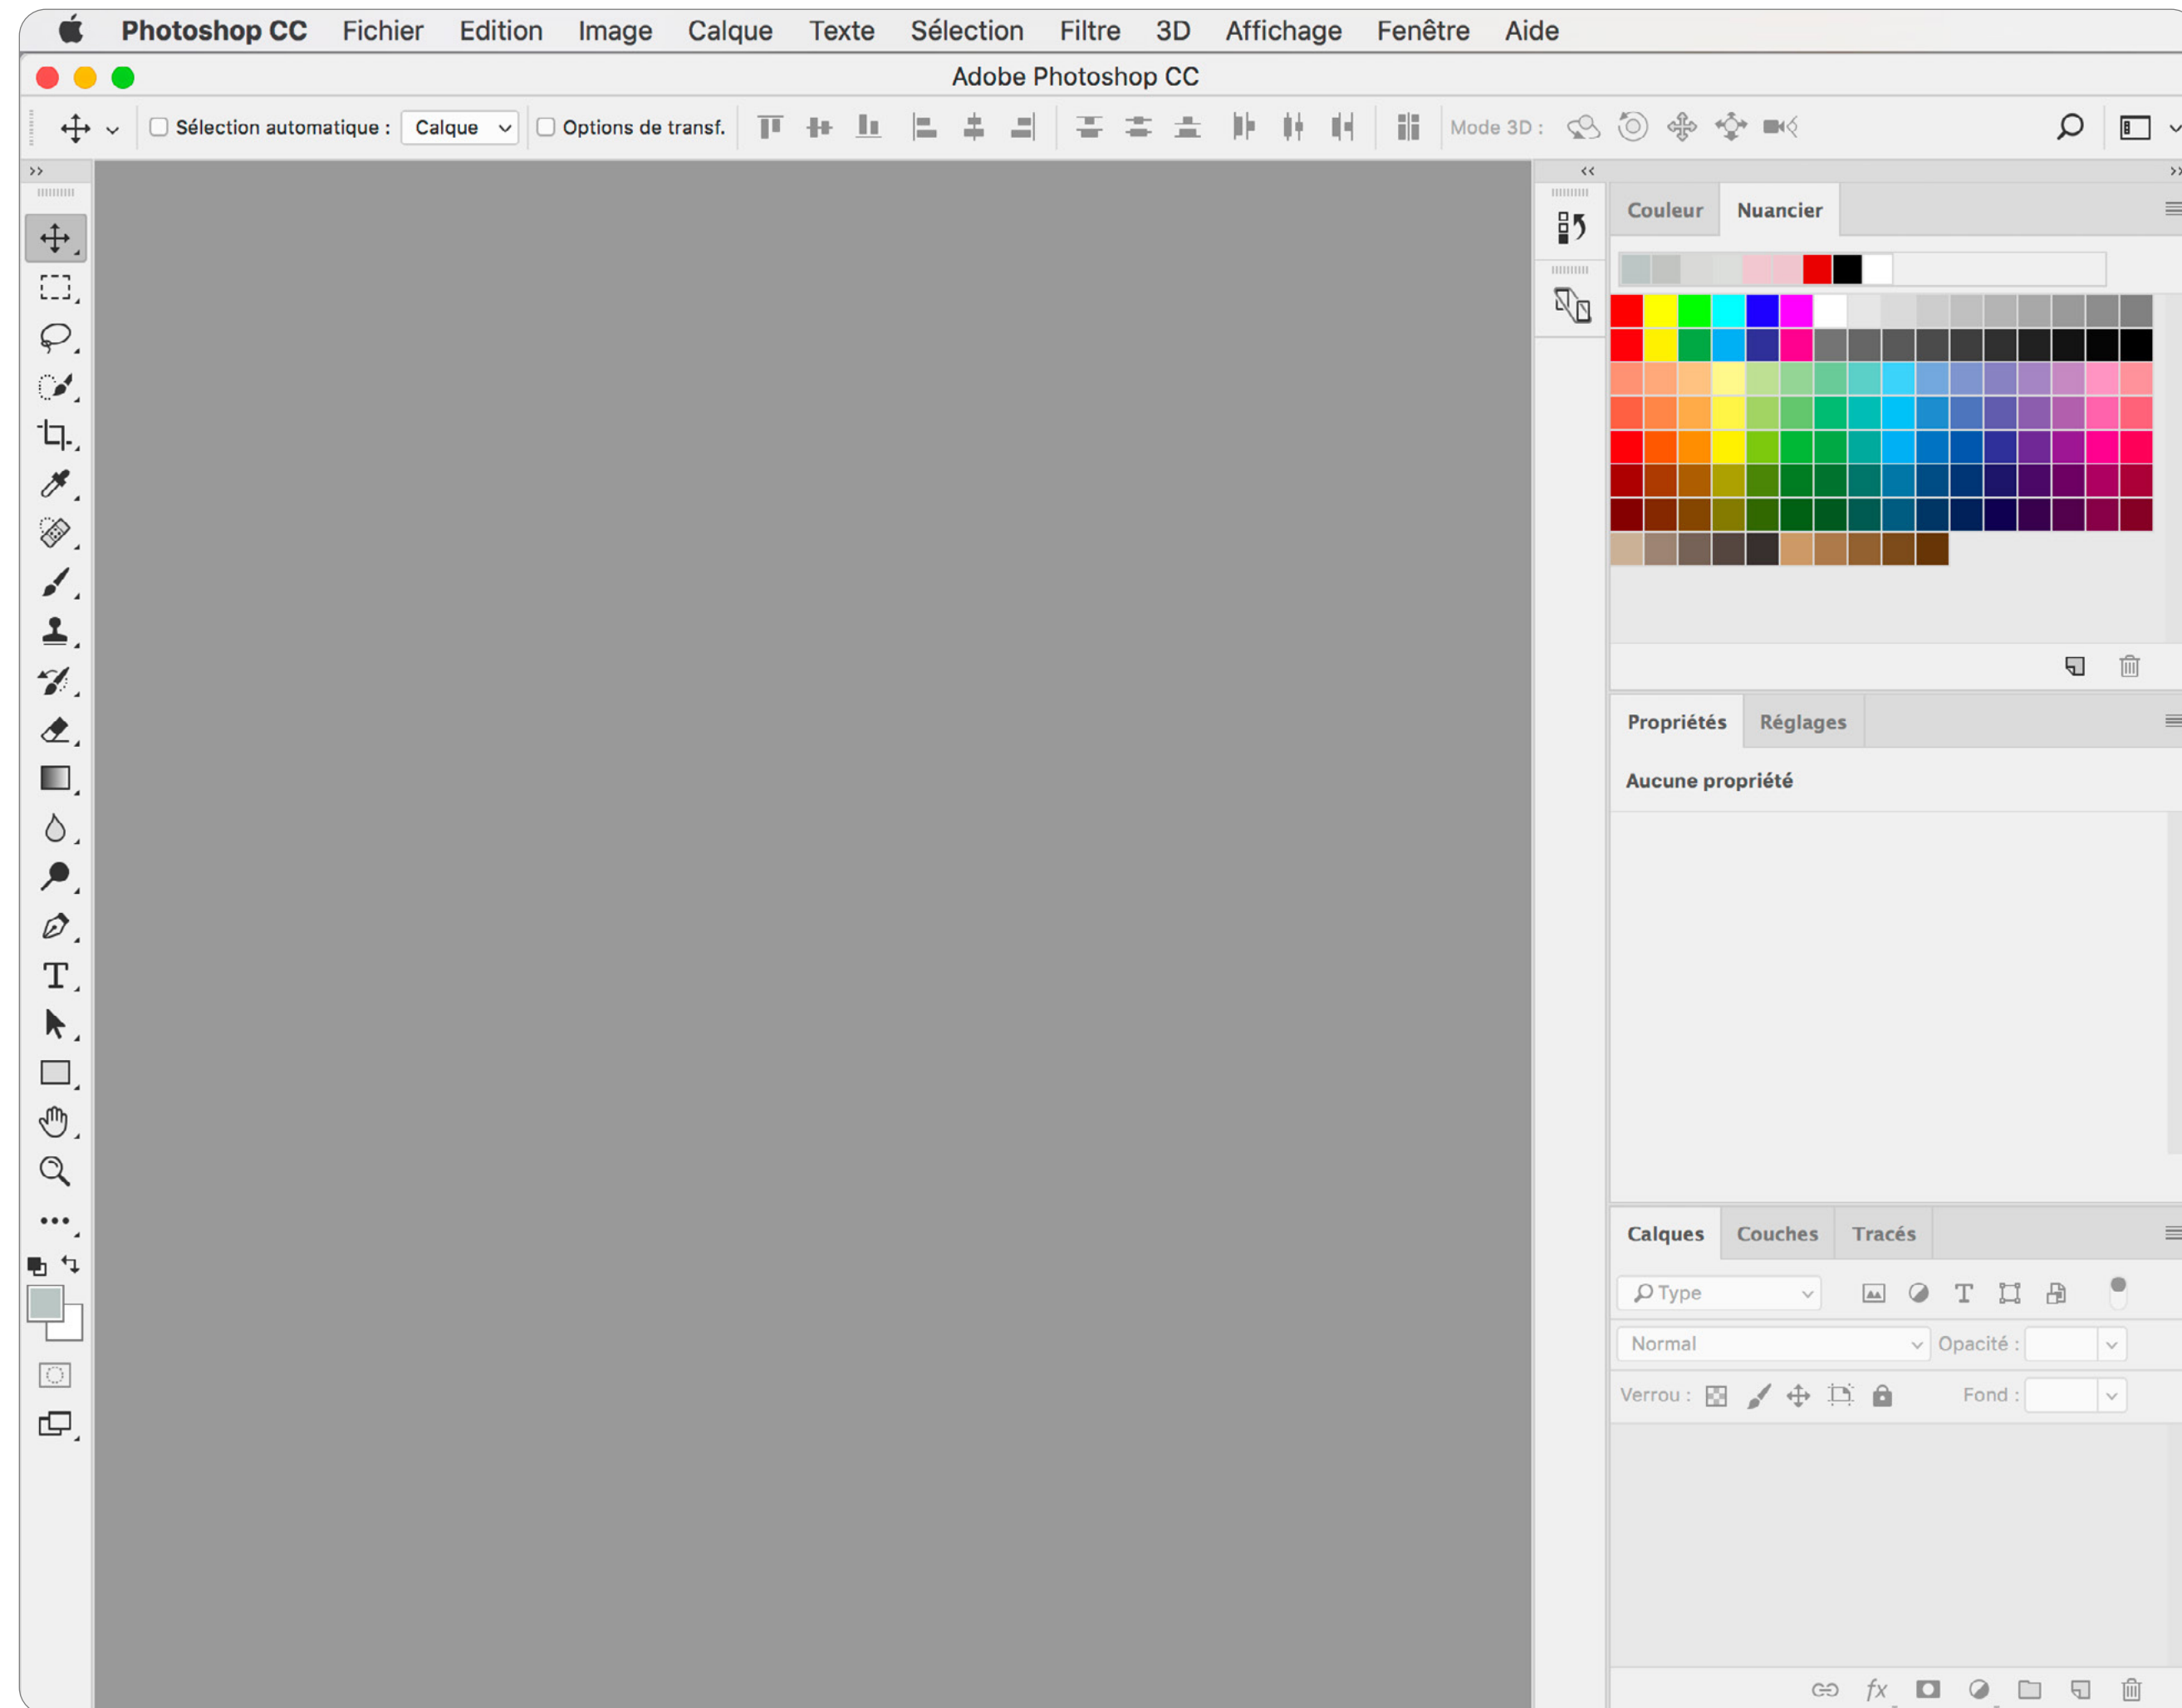

**HERE WE ARE USING
ADOBE PHOTOSHOP**

as an example, but you can also use the
ASE swatches file with:

- **ADOBE ILLUSTRATOR**
- **ADOBE INDESIGN**

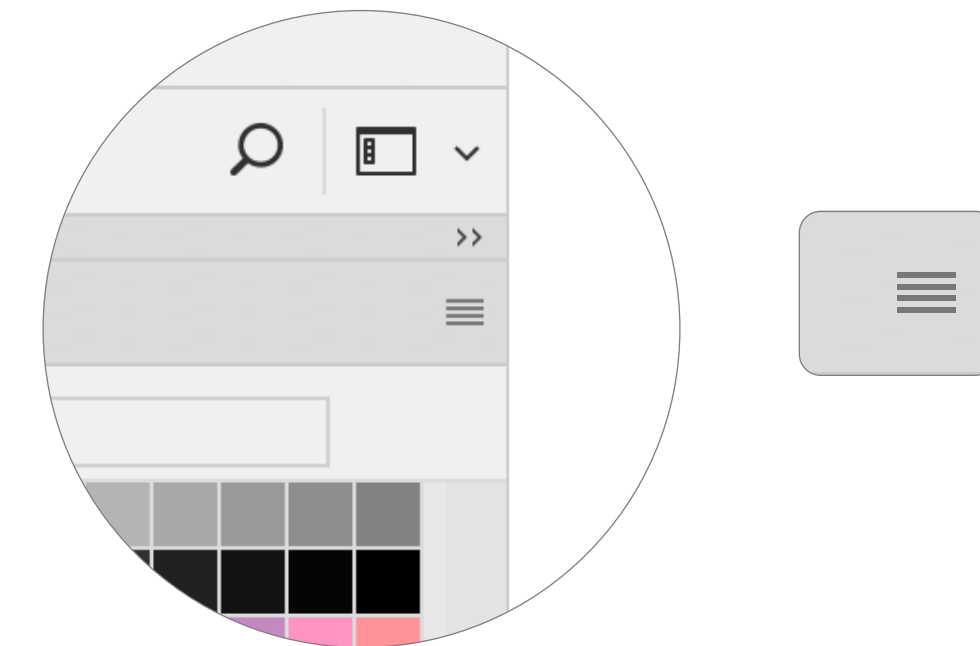

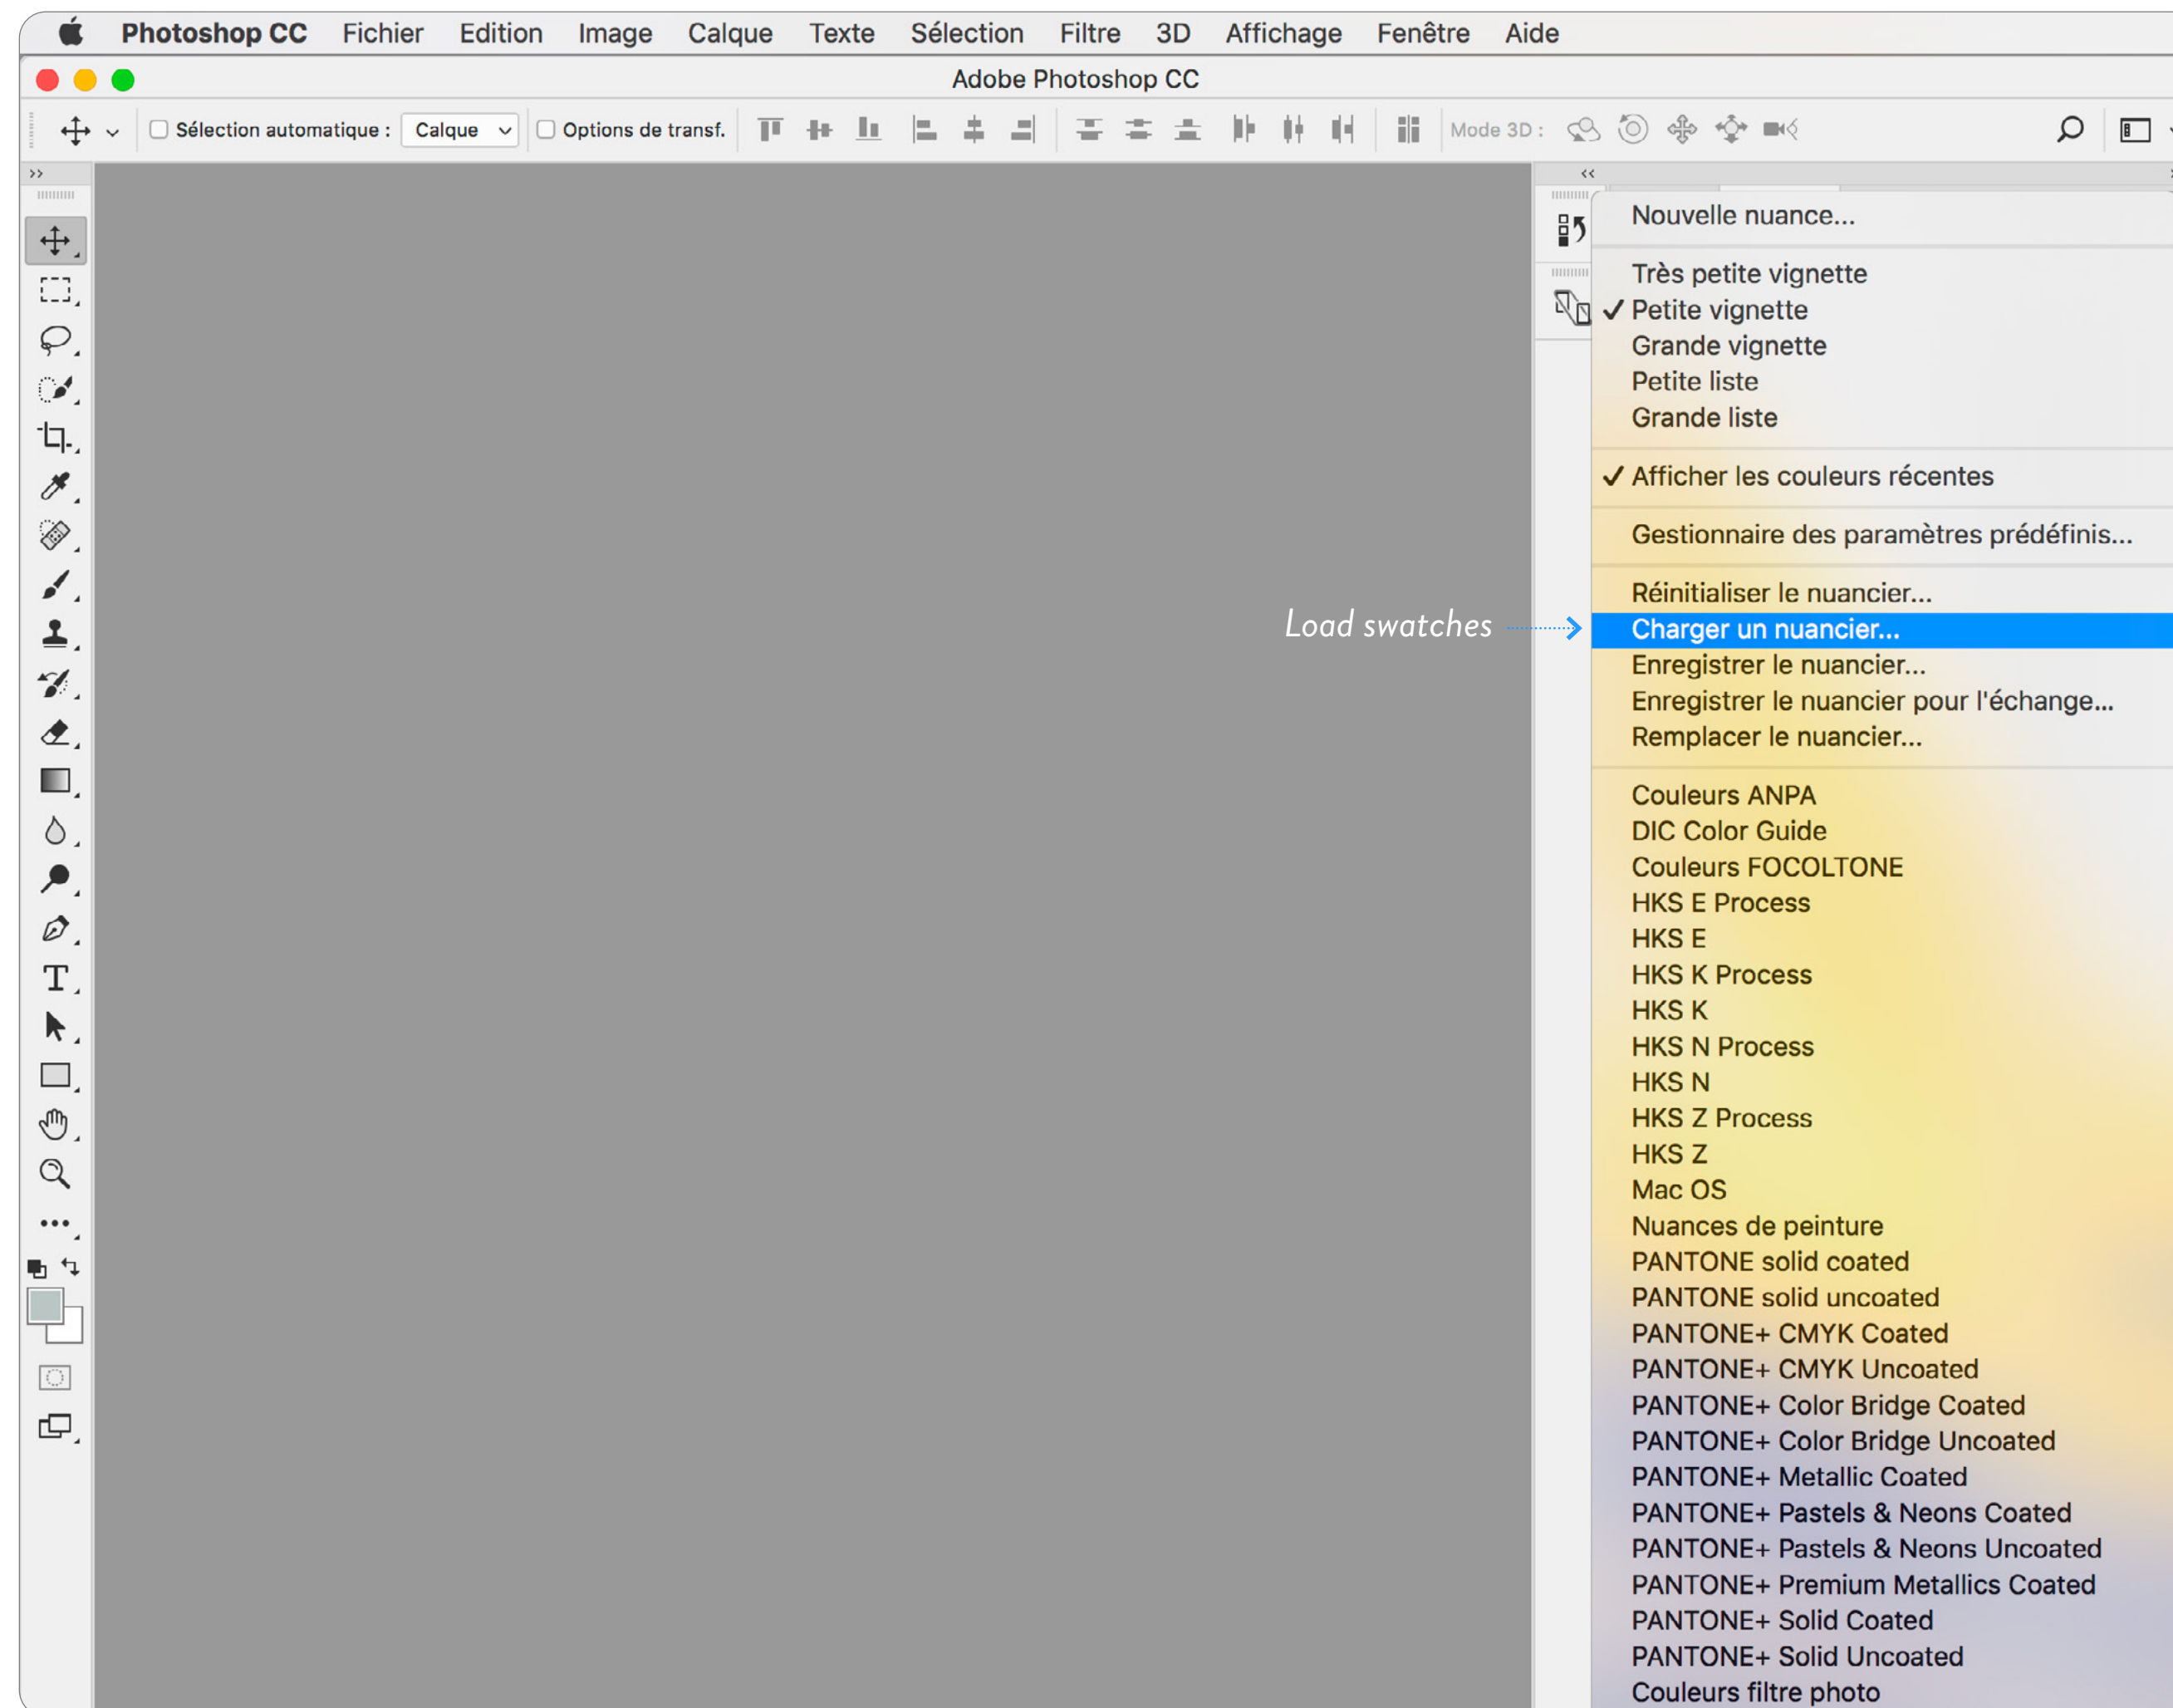

In Adobe Photoshop,
open the “Swatches” panel.

Your “Swatches” panel
is now open and ready to use.

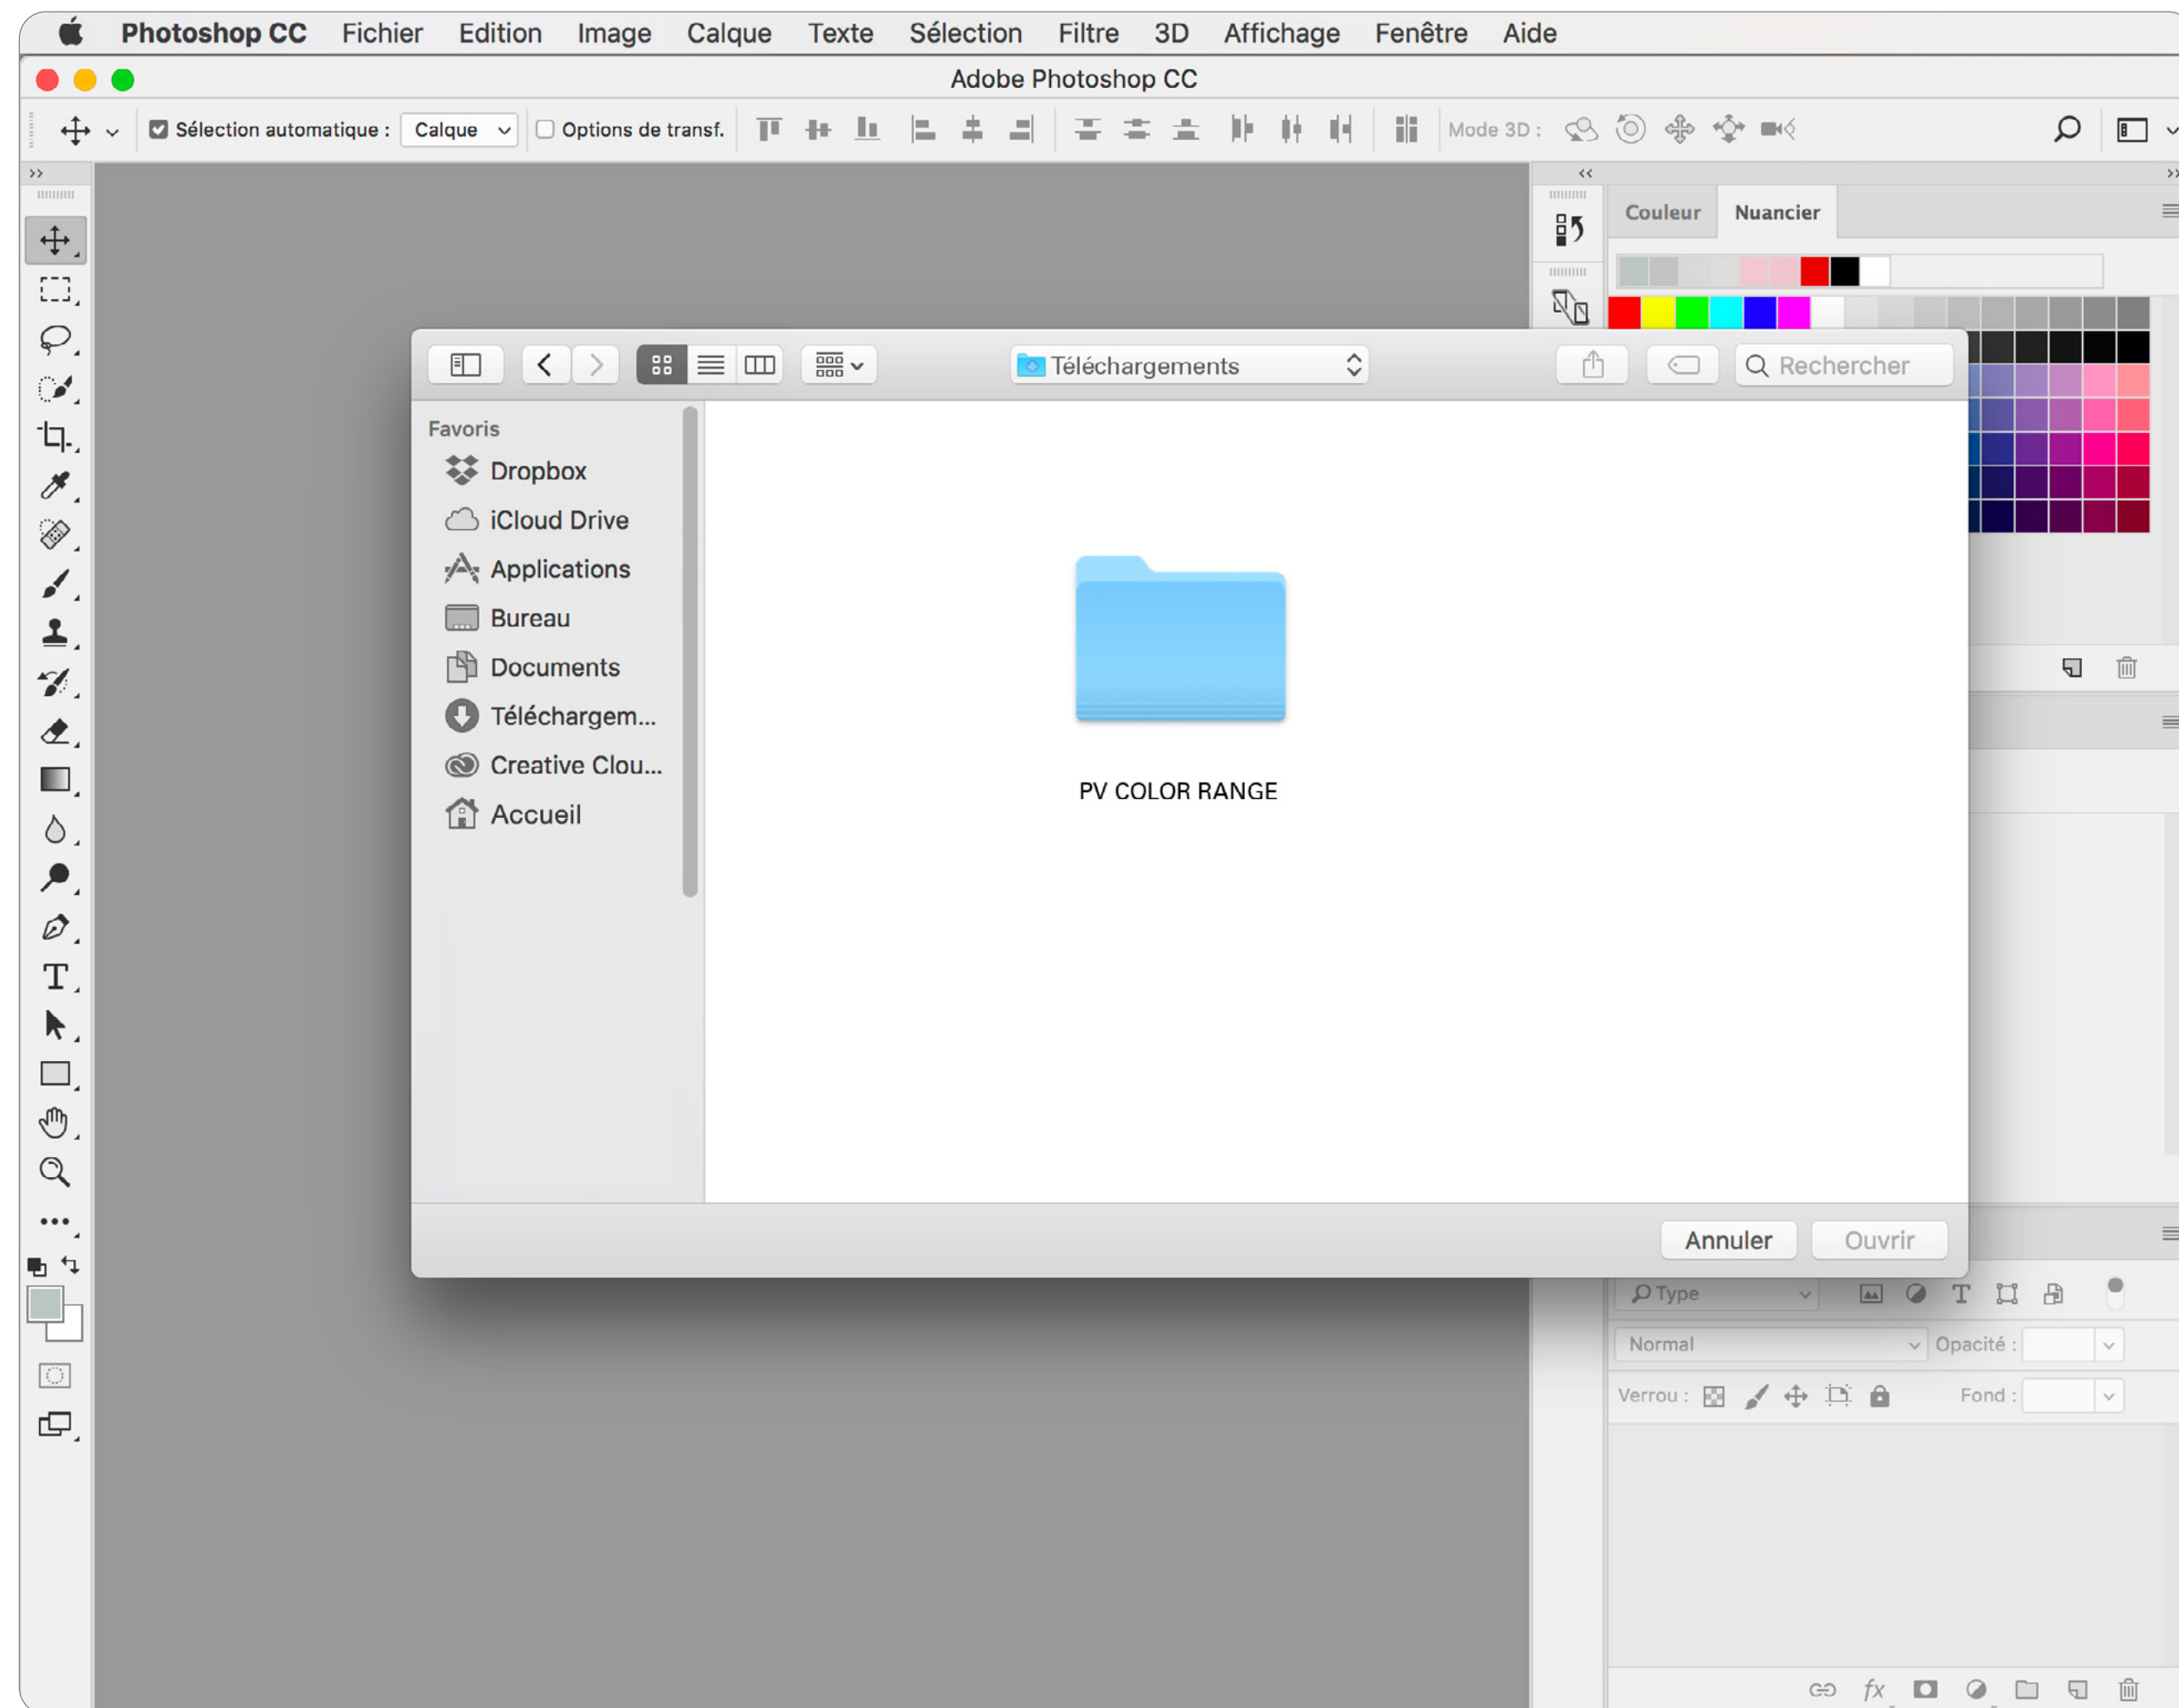

STEP 3

LOAD THE PV COLOR RANGE.ASE SWATCH LIBRARY

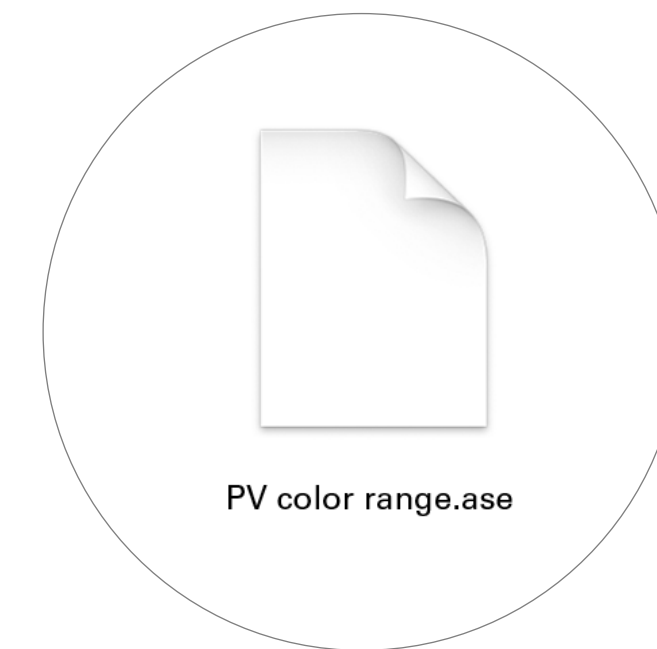

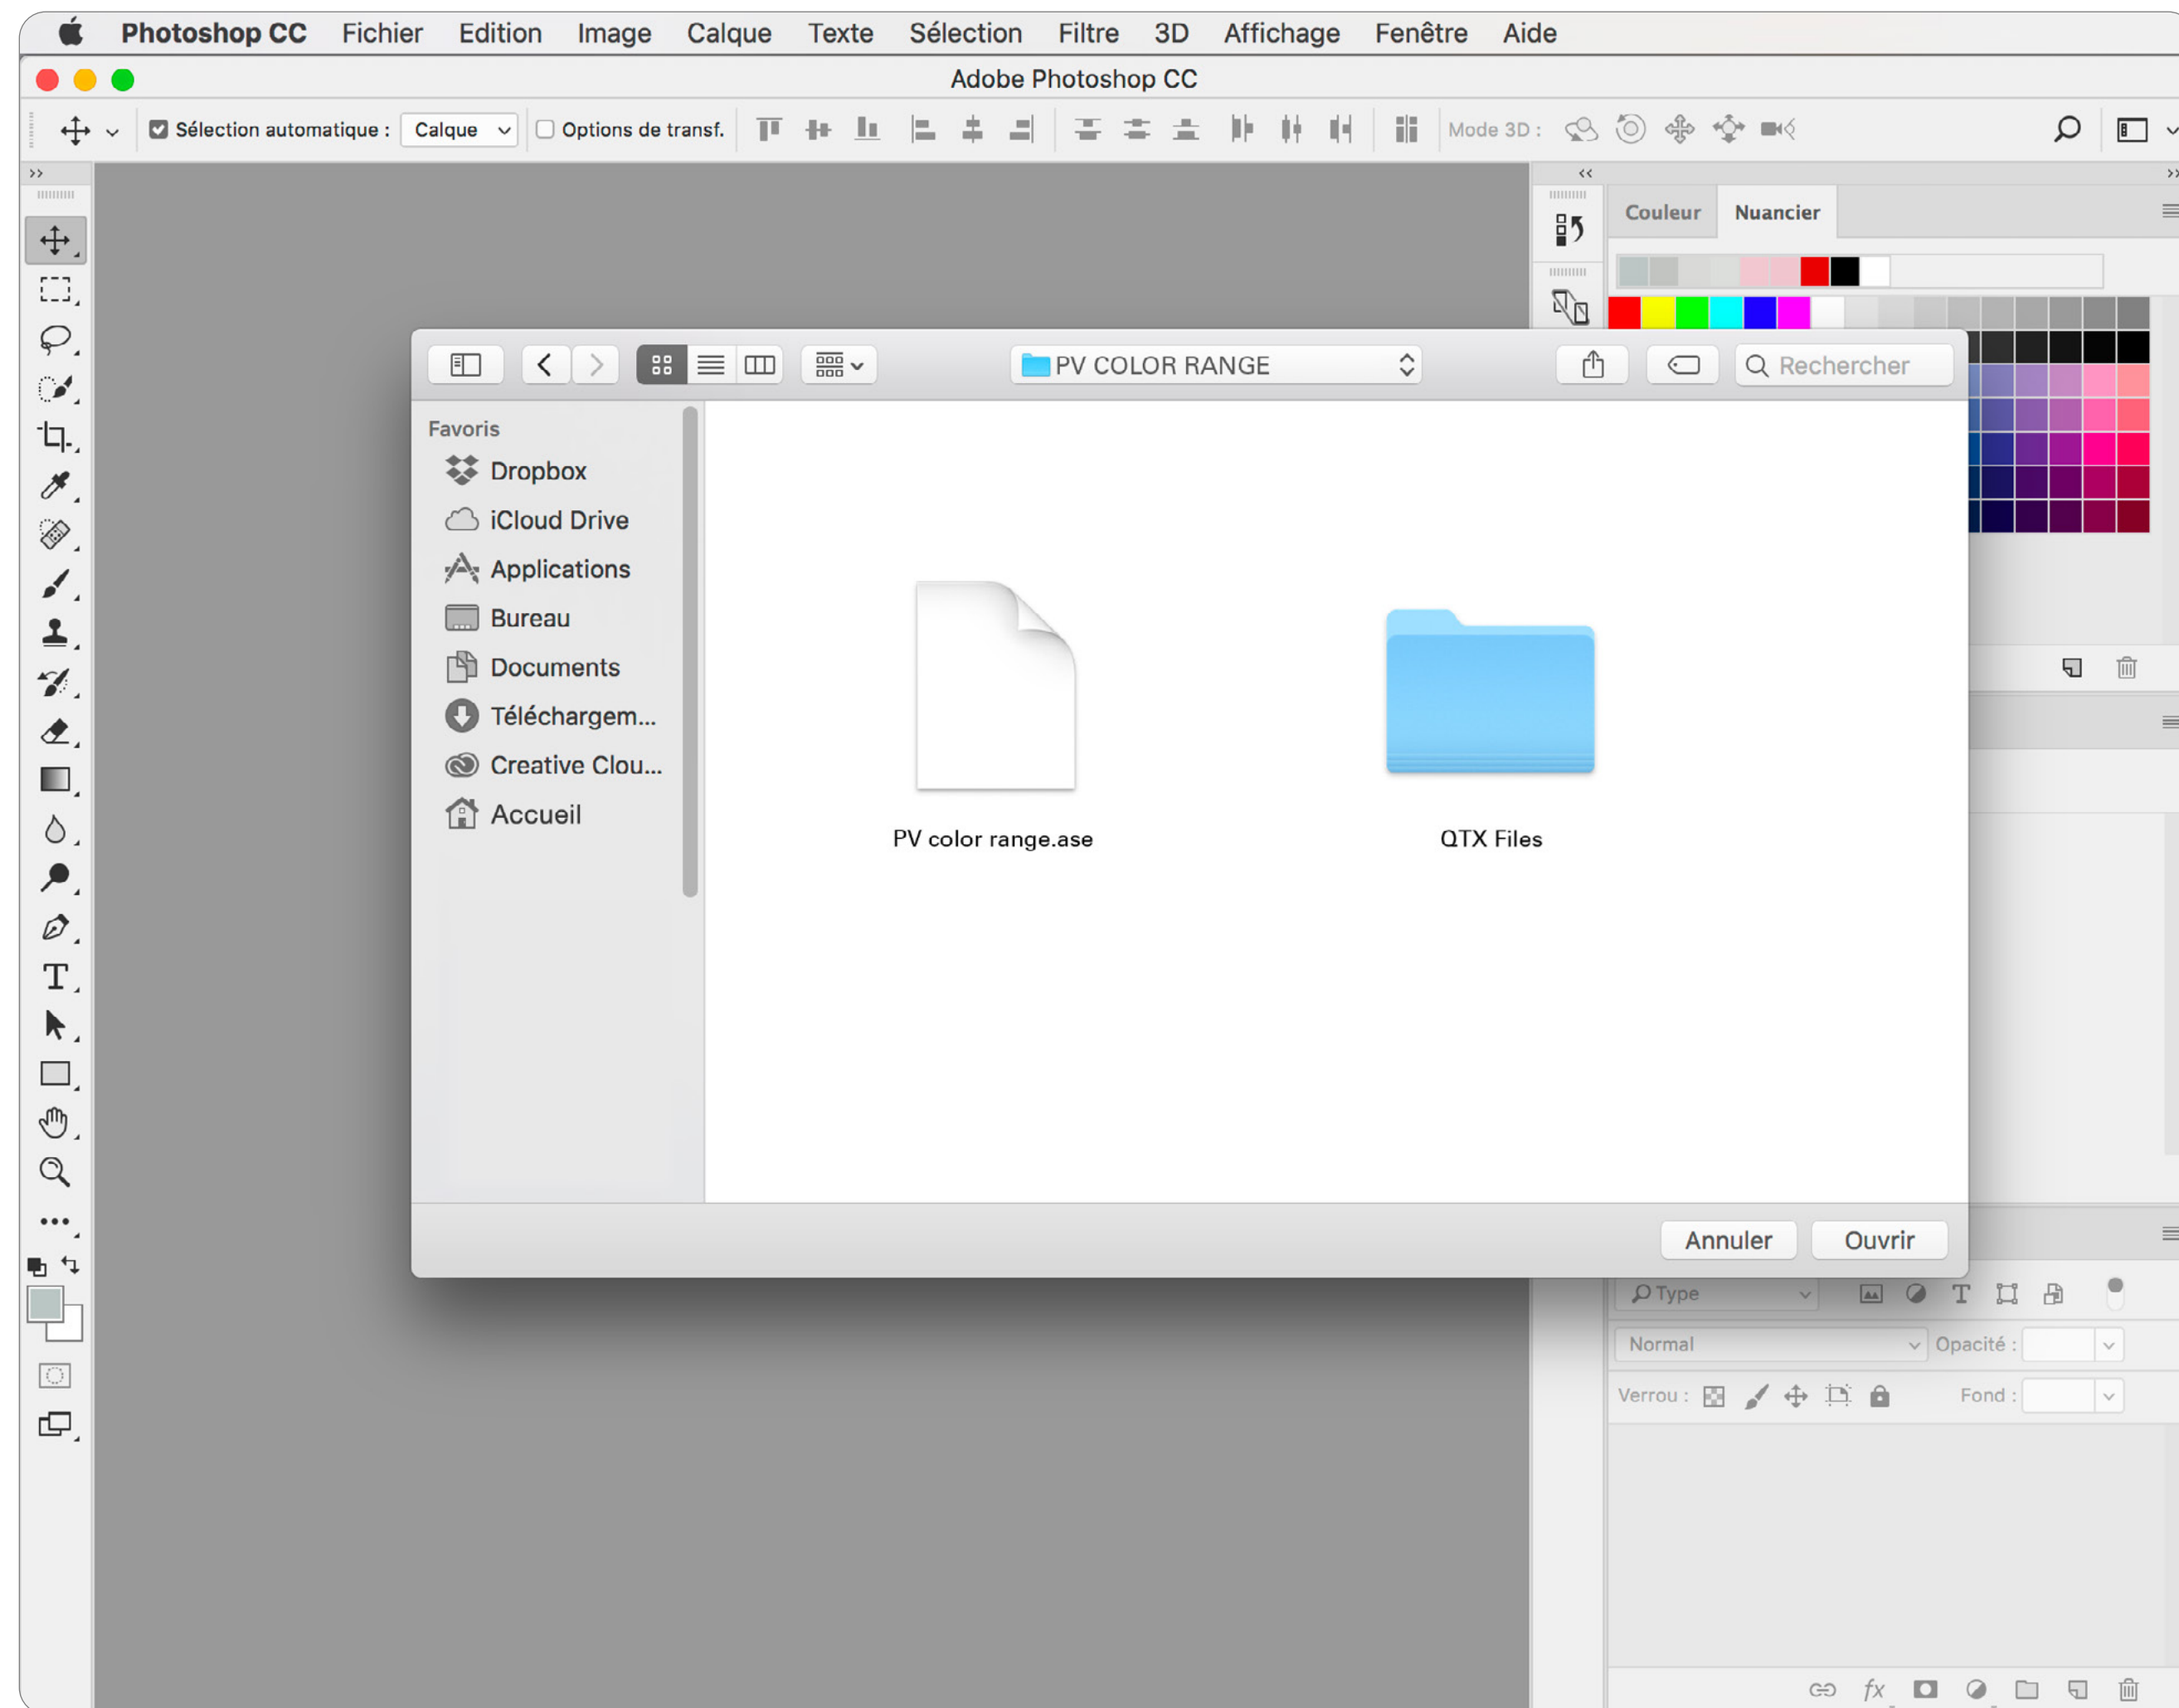

In the “Swatches” panel, click on the icon at the top right of the window to display the pop-up menu.

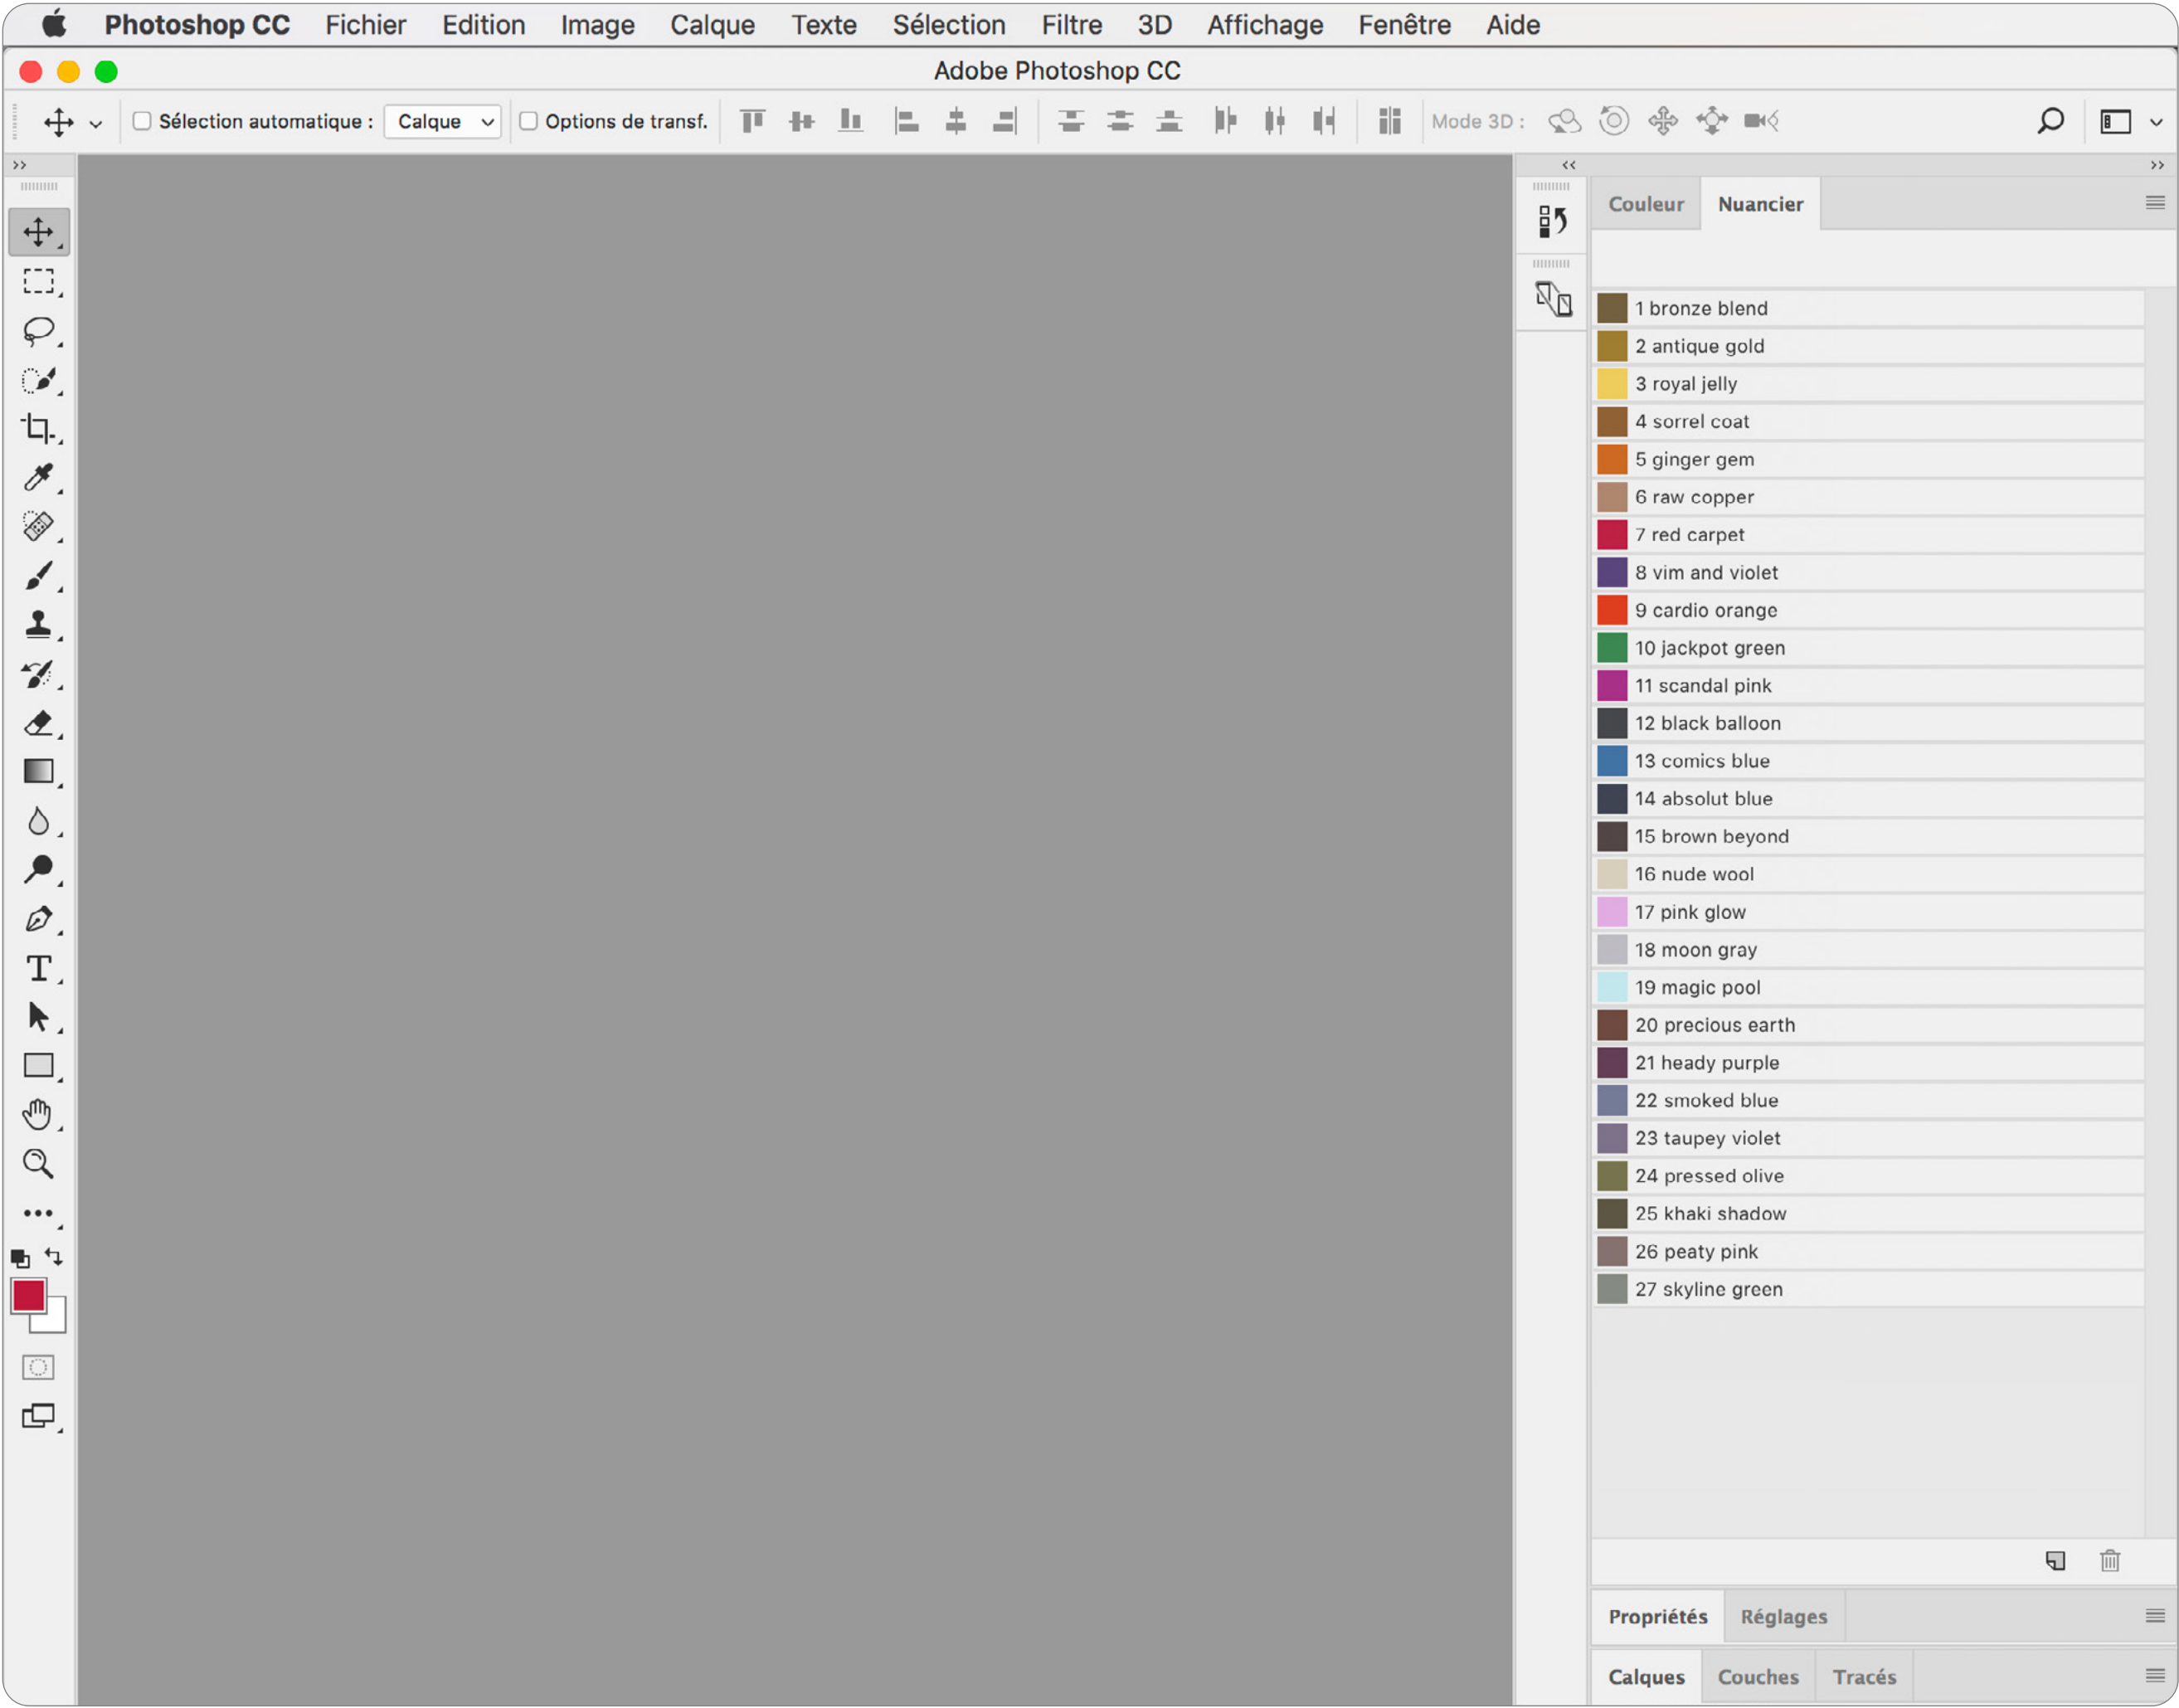

In the pop-up menu, click on “Load swatches”.

Open the folder with the files previously downloaded in your computer.

Select the PV color range.ase
swatch library and click on
the “Open” button.

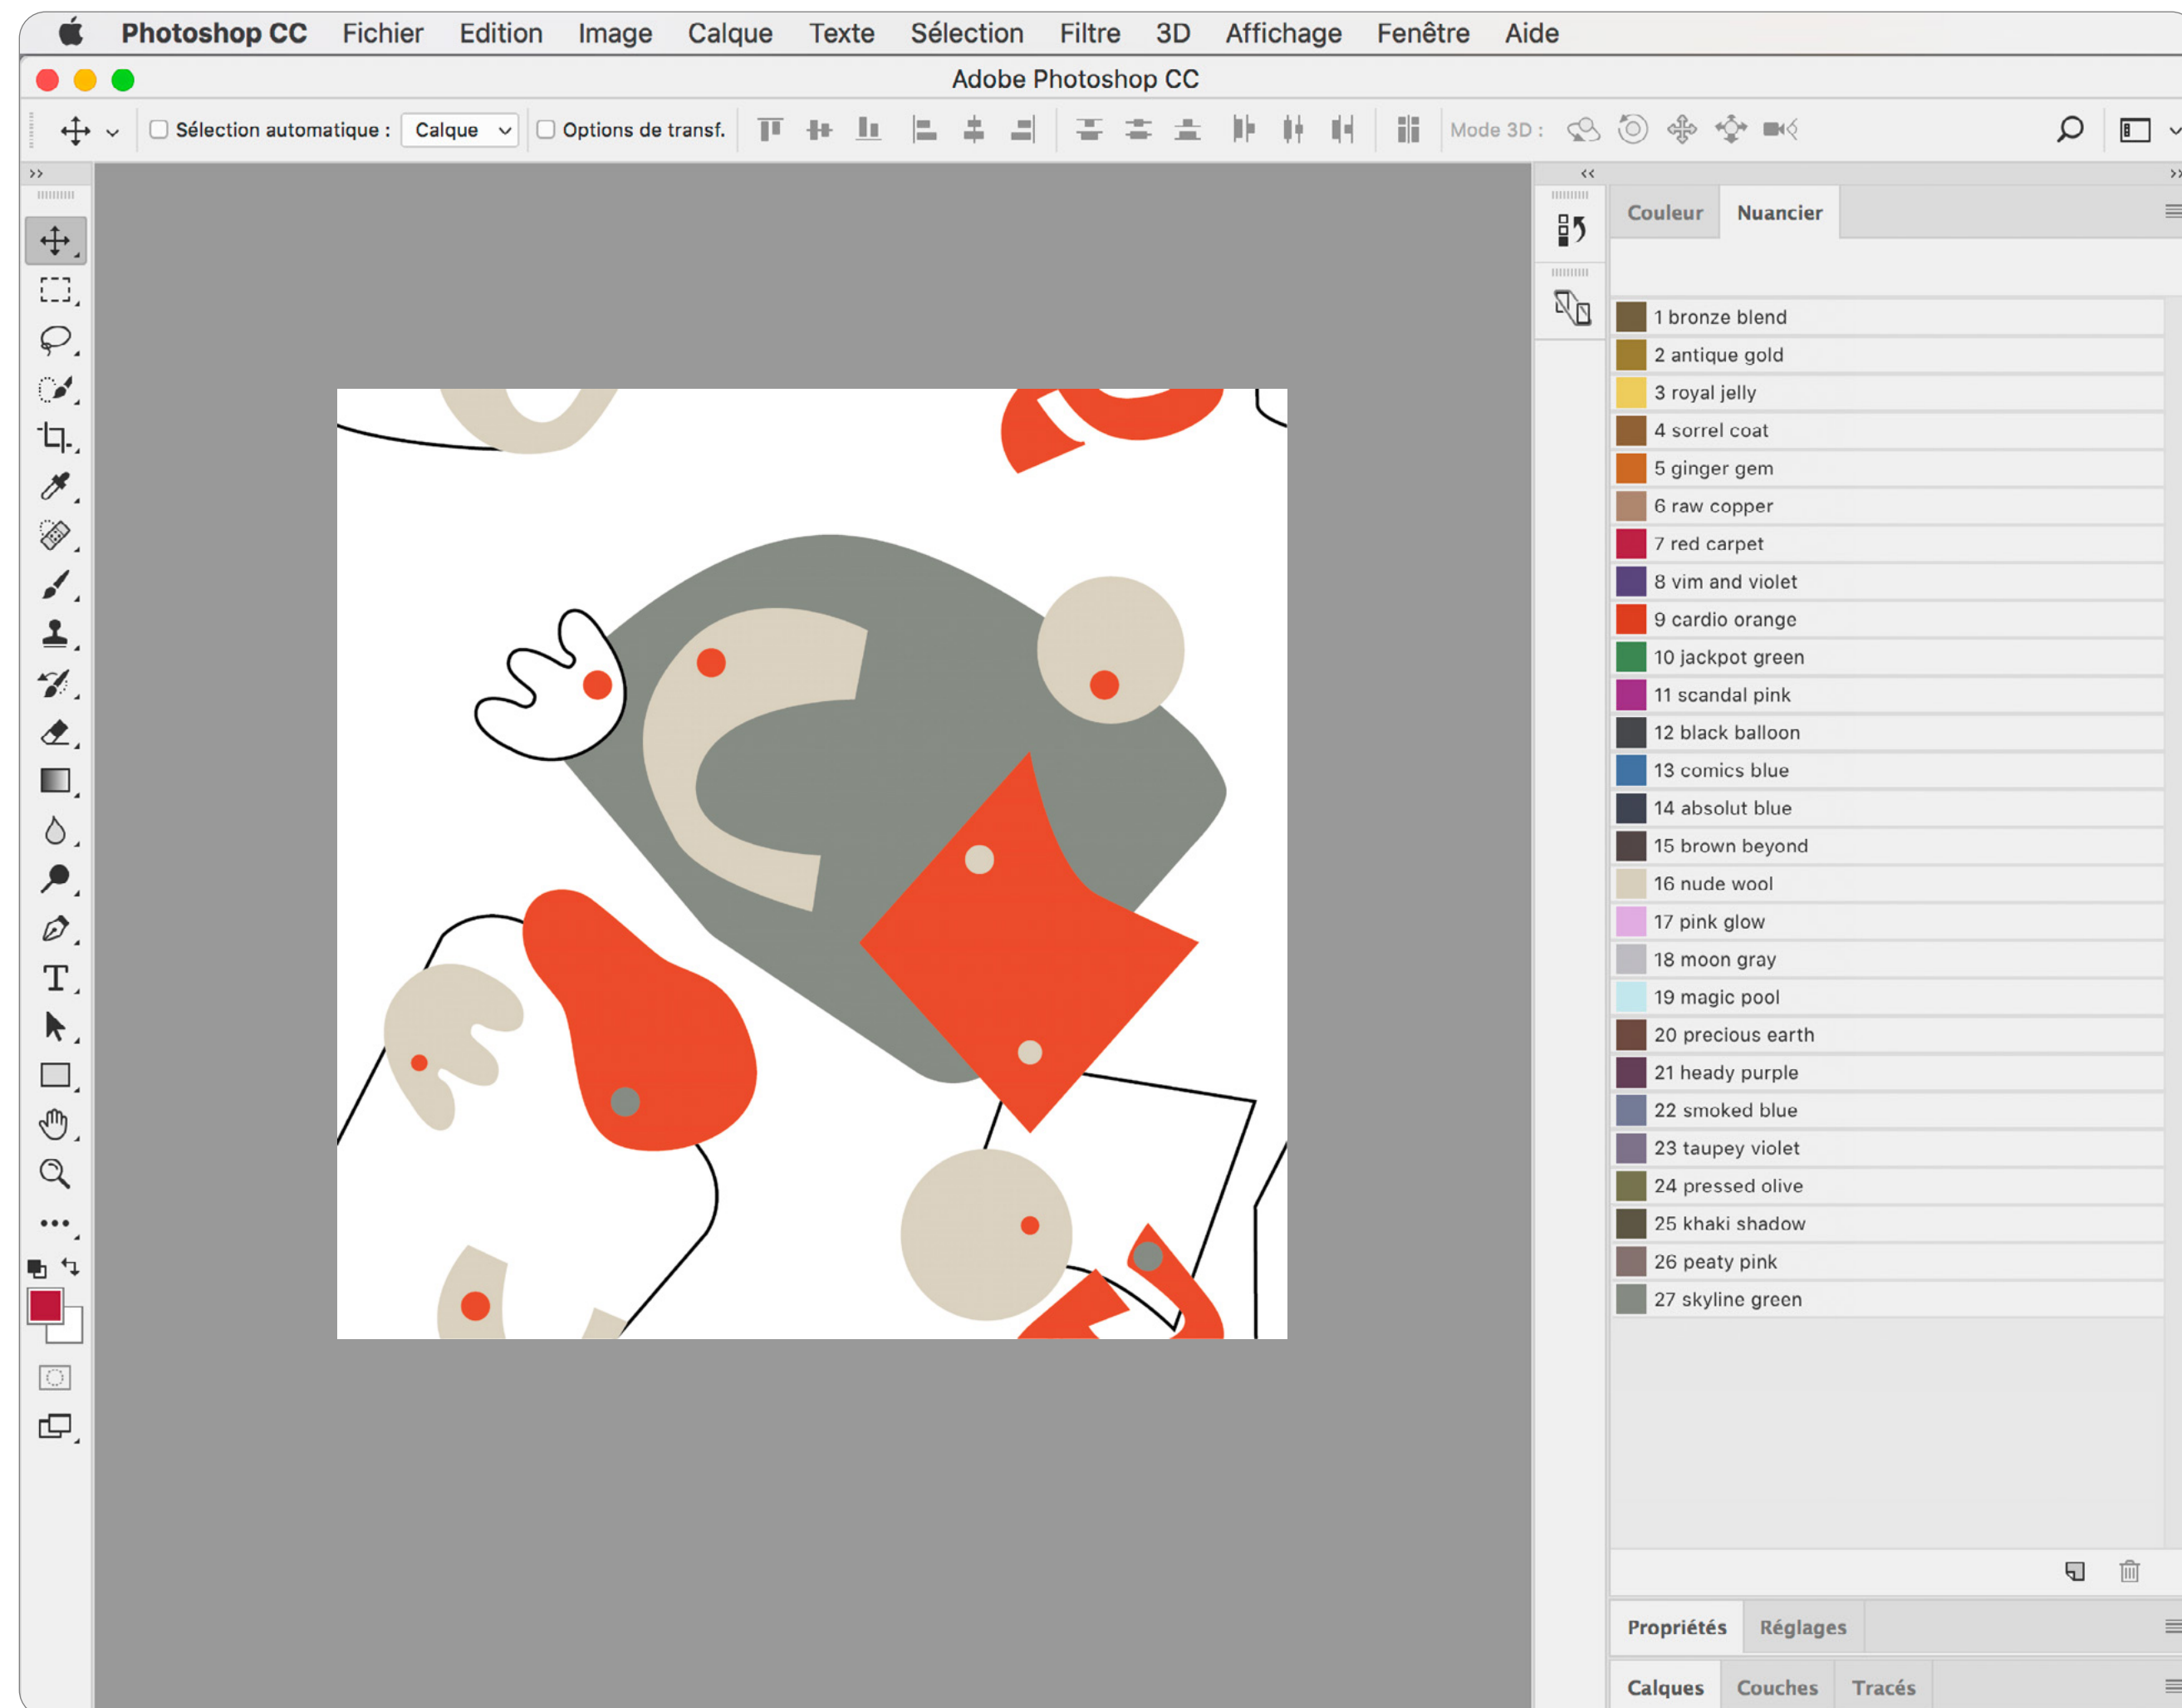

The ASE swatch library is loaded into the window with the color numbers and names.

It is now ready to use.

STEP 4

**YOU CAN NOW START USING
THE PV COLOR RANGE.ASE
SWATCH LIBRARY**

OPEN THE MOTIF YOU WOULD LIKE TO COLOR USING THE COLORS IN THE ASE SWATCH LIBRARY.

Select one of the colors in the ASE swatch library with the Eyedropper tool.

Select the Paint Bucket tool and click on an area of your design to fill it with the selected color.

You can continue to develop color variants of your motif.

You can apply the colorised motifs to silhouettes, to select the right color variants.
